Policy No. _____

IMPORTANT NOTICE

The nonforfeiture option of this policy is the purchase of Extended Term Insurance. This means that if, for some reason, we do not receive the premium as billed, the cash value of the policy would be used to purchase Term Insurance for the basic face amount of the policy for a specific period of time. If you decided to again pay premiums on the policy, medical evidence would be required to reinstate the policy on a premium-paying basis.

If you would like to have the nonforfeiture option changed to Automatic Premium Loan where any billed premium not received would be automatically paid by borrowing the available cash value of the policy and thereby keeping the policy on a premium-paying basis, please date and sign the bottom part of this notice and return it in the envelope provided.

Please change my Non-forfeiture Option to Automatic Premium Loan
